## 1.0 INTRODUCTION

---

This Monthly Progress Report is submitted in accordance with the ADMINISTRATIVE ORDER ON CONSENT (AOC) FOR REMOVAL ACTION Proceeding Under Sections 104, 106(a), 107, and 122 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA), as amended, 42 U.S.C. SS 9604, 9606(a), 9607, and 9622 (United States Environmental Protection Agency (U.S. EPA) Docket No.: V-W-'03-C-747) effective July 31, 2003.

The next Monthly Progress Report, for the month of June 2008, will be submitted on or before July 15, 2008.

## 2.0 SIGNIFICANT DEVELOPMENTS IN THIS MONTH

---

- Air monitoring has continued. Final validated results of the creek Removal Action (RA) air-monitoring program for May 2008 are presented in Table 1.1a (polychlorinated biphenyl (PCB) results) and Table 1.1b (total suspended particulate (TSP) Stations 25C, 28A, and 32B). The locations of the air monitoring stations in the Downstream Parcels are presented on Figure 1.
- Verification results are presented on Figures 2 through 14 to show progress as of this reporting period. Work completed in the parcels, as presented, is not complete as either additional excavation or statistical evaluation may be required to confirm the cleanup objective has been met. Verification figures for a given parcel are included in the monthly report as new data become available until all cleanup criteria are met, whereupon the figure is presented with validated data. Final verification figures will be presented in the Downstream Parcels Construction Certification Report.
- Work continued in May 2008 along the stream channel of Parcels 36, 37, 38, 39, 40, and 81 to remove impacted soil and sediment from the creek channel and floodplain. Confirmation sampling was conducted on the following excavated parcels:
  - Parcel 36 on May 1, 13, 15, and 19, 2008, as presented on Figures 2 and 4.
  - Parcel 37 on May 1, 2008, as presented on Figure 5.
  - Parcel 38 on May 5, 2008, as presented on Figure 3.
  - Parcel 39 on May 1, 13, 15, 21, 22, and 30, 2008, as presented on Figures 6, 7, 8, 10, 12, and 14.
  - Parcel 40 on May 2, 7, 12, 15, and 22, 2008, as presented on Figures 9, 13, and 14.
  - Parcel 81 on May 2, 12, and 30, 2008, as presented on Figure 11.
  - Figures 15, 16, 17, and 18, depict key-maps of verification area grids for the parcels sampled during this reporting period.

- A total of 32,502 tons of <50 mg/kg PCB material was moved from Staging Area G and placed in approved fill areas within the East Plant Area in May 2008.
- The summary of PCB soil disposal for May 2008 is presented in Table 2.1. The transportation and disposal summary for the <50 mg/kg PCB soil is presented in Table 2.1a
- Water within the remediation areas was collected and treated by ENTACT Environmental Services' (ENTACT's) and/or Severson Environmental Services' (SES's) on-Site water treatment systems. U.S. EPA has approved direct discharge of treated water from both ENTACT's treatment system at Staging Area F and SES's treatment system at Parcel 216 Staging Area. Water treatment sample results for ENTACT's and SES's treatment systems for May 2008 are provided in Table 3.1 and 3.2, respectively.
- Operation of Borrow Area 39-1 continued.
- Restoration of Parcels 29-37 began.
- Tree consolidation, chipping, and mulching continued.
- A conference call was held on May 13, 2008, with U.S. EPA, Agency for Toxic Substance and Disease Registry (ATSDR), the Indiana Department of Environmental Management (IDEM), and the Indiana State Department of Health (ISDH) to discuss items related to the RA and the design and construction of the East Plant Area Interim Measures (IM). The United States Fish and Wildlife Service (USFWS) was also invited to the call.
- On-Site construction meetings for the reporting period have been held informally daily and formally weekly. Meetings with SES are generally held on Wednesdays. SES meetings were held on May 1, 7, 14, 21, and 30, 2008. Meetings with ENTACT are held generally on Thursdays. The ENTACT meeting was held on May 1, 8, 15, and 22, 2008. There was no meeting on May 29, 2008. Restoration meetings (SES) are generally held on Wednesdays. SES Restoration meetings were held on May 7, 14, 21, and 28, 2008. Meeting minutes for these meetings can be found in Appendix B.

### 3.0 SUMMARIES OF ALL ANTICIPATED PROBLEMS AND PLANNED RESOLUTIONS

---

- GM continues to evaluate the Spring 018 Area. This spring water is currently captured and treated before entering the creek.
  - A report summarizing Site Source Control (SSC) Work Plan: Addendum No. 5 and the investigation/evaluation of the Spring 018 area alternatives will be prepared.
  - At approximately 3:15 pm on May 7, 2008, the pump sending Spring 018 water to the SES treatment system was shut off to prevent overflow of the system. Storms continued through May 8, 2008 with flow from the project areas continuing to be contained, but using up any available treatment capacity. Spring 018 was contained by 4:00 p.m. on May 9, 2008. A sample of the spring water was collected. A reportable quantity (RQ) was not exceeded.
  - At approximately 9:30 am on May 30, 2008, it was observed that water had backed up in the berm surrounding Spring 018 and was trickling over the top of the berm. A portion of the screen on the pump was blocked with poly sheeting that had come loose during the previous rain event. The overflow was contained by 10:00 am the same day. Upon review of the site inspection log, it was noted that the pump was operating properly as of 8:30 am that same day. A sample of the spring water was collected. A reportable quantity (RQ) was not exceeded. A representative from Hydrogeology Inc, Earth Tech, and CRA inspected the Spring 018 Area in May 2008 and did not find any new conditions that may be contributing to the increase in discharge at Spring 018C. The increase in flow is likely due to the unusually large amount of rainfall and existing saturated conditions.
- There was an unexpected high intensity rain event that caused overflow to the creek on May 27, 2008.
  - 1.92 inches of rain fell within a 45 minute period with a total of 2.4 inches of rain over a 10 hour period:
    - o The berm containing the remediation water from the grading fill area south of the water treatment plant, overflowed for approximately 1 hour and 20 minutes between 3:00 to 3:15 pm. This water, combined with the stormwater from clean clay cover areas in Detention Basin 5 (DB5), was released to the creek. At approximately 5:35 pm, the flow from DB5 to the creek was contained. The overflow water was sampled. Water from DB5 continues to be collected and treated. A RQ was not exceeded.
    - o Water from the impacted fill area on the north side of the Site began to overflow at approximately 3:20 pm and was contained at approximately 4:10 pm. This water flowed into DB3 which flowed into DB4, along with stormwater from GM Drive and the clean clay covered areas. DB4 began to overflow to the creek at approximately 3:20 pm and flow into DB4 was contained at approximately 5:35 pm. Residual water

- entering into DB4 from surface water caused DB4 to overflow until approximately 8:45 pm. The overflow water was sampled. Water from DB4 continues to be collected and treated. A RQ was not exceeded.
- Spring 018 and Wet Wells 1, 2, and 3 were contained.
  - A total of 35.27 inches of rain has fallen between January and June of this year. The average rainfall for the entire year is 46.79 inches.

#### **4.0 PROJECTED WORK FOR THE NEXT REPORTING PERIOD**

---

- The following is a list of anticipated work for the next reporting period:
  - Continue excavation in the Downstream Parcels (ENTACT work area);
  - Continue operation of Borrow Area 39-1;
  - Continue tree consolidation, chipping, and mulching;
  - Continue road repair work, as needed;
  - Submit SSC Investigation Summary and Remedial Alternatives Review Report summarizing studies completed in the Spring 018 Area;
  - Continue to collect and treat water from DB4 and DB5 until damage to the detention basins can be assessed (from a cross contamination standpoint);
  - Remove additional trees in work areas on Parcels 40 and 81;
  - Resume transportation of the <50 ppm soil from the creek in the approved East Plant Area fill areas;
  - Dispose  $\geq 50$  mg/kg RA soils from the creek at the Heritage Landfill in Roachdale, Indiana;
  - A road meeting will be held with residents along the truck haul route on June 17, 2008;
  - Meetings will be held with the neighbors and the public on June 18 and 19, 2008; and
  - A meeting will be held with the CLP on June 20, 2008.

**GENERAL NOTES:**

- (1). Cleanup Criteria
  - a.) Soils to  $\leq 1.8$  mg/kg.
    - If all results are  $< 5.0$  mg/kg, the cleanup objective can be verified in the Verification Area (approximately 100ft x 200ft) by calculating the Upper Confidence Limit (UCL) of the average concentration using statistics, if the UCL is  $\leq 1.8$  mg/kg the cleanup objective will be met for the given Verification Area. A value of 0 mg/kg is used in the UCL calculation for sample grids excavated to bedrock.
  - b.) Sediments to  $\leq 1$  mg/kg.
- (2). Composite sidewall samples were collected in the location where the sidewall of the excavation exceeded 6 inches in height.
- (3). The surficial confirmation samples (8 composites per Verification Area except where bedrock is encountered) were collected after the soil/sediment removal was performed.
- (4). A value of 0 mg/kg is used for ND in the calculation of Total PCBs.
- (5). For UCL calculations, Aroclors 1016, 1221, and 1232 have been assigned a ND value of 0 mg/kg based upon their lack of presence in the data.
  - UCL calculations are performed on Aroclors 1242, 1248, 1254, and 1260 using half the quantitation limit where ND results are reported.
  - UCL calculations included both floor and sidewall samples.
- (6). The sampling round (e.g. R1, R2, etc.) correlates to Verification Area grids or sidewalls where additional rounds of excavation were completed due to exceedances of the cleanup criteria.
- (7). Property boundary locations approximated from the Lawrence County survey plats. Locations may not accurately represent the true property boundaries.
- (8). The verification figure is presented to show progress for this reporting period. Excavation verification may not be complete as statistical analysis or further excavation may be required.

UCL Calculations		Final UCL Calculation Pending					

**GENERAL NOTES:**

- Cleanup Criteria
  - Soils to  $\leq 1.8$  mg/kg.
    - if all results are  $< 5.0$  mg/kg, the cleanup objective can be verified in the Verification Area (approximately 100ft x 200ft) by calculating the Upper Confidence Limit (UCL) of the average concentration using statistics, if the UCL is  $\leq 1.8$  mg/kg the cleanup objective will be met for the given Verification Area. A value of 0 mg/kg is used in the UCL calculation for sample grids excavated to bedrock.
  - Sediments to  $\leq 1$  mg/kg.
- Composite sidewall samples were collected in the location where the sidewall of the excavation exceeded 6 inches in height.
- The surficial confirmation samples (8 composites per Verification Area except where bedrock is encountered) were collected after the soil/sediment removal was performed.
- A value of 0 mg/kg is used for ND in the calculation of Total PCBs.
  - UCL calculations are performed on Aroclors 1242, 1248, 1254, and 1260 using half the quantitation limit where ND results are reported.
  - UCL calculations included both floor and sidewall samples.
- The sampling round (e.g. R1, R2, etc.) correlates to Verification Area grids or sidewalls where additional rounds of excavation were completed due to exceedances of the cleanup criteria.
- Property boundary locations approximated from the Lawrence County survey plats. Locations may not accurately represent the true property boundaries.
- The verification figure is presented to show progress for this reporting period. Excavation verification may not be complete as statistical analysis or further excavation may be required.

UCL Calculations					

**GENERAL NOTES:**

- Cleanup Criteria
  - Soils to  $\leq 1.8$  mg/kg.
    - if all results are  $< 5.0$  mg/kg, the cleanup objective can be verified in the Verification Area (approximately 100ft x 200ft) by calculating the Upper Confidence Limit (UCL) of the average concentration using statistics, if the UCL is  $\leq 1.8$  mg/kg the cleanup objective will be met for the given Verification Area. A value of 0 mg/kg is used in the UCL calculation for sample grids excavated to bedrock.
  - Sediments to  $\leq 1$  mg/kg.
- Composite sidewall samples were collected in the location where the sidewall of the excavation exceeded 6 inches in height.
- The surficial confirmation samples (8 composites per Verification Area except where bedrock is encountered) were collected after the soil/sediment removal was performed.
- A value of 0 mg/kg is used for ND in the calculation of Total PCBs.
- For UCL calculations, Aroclors 1016, 1221, and 1232 have been assigned a ND value of 0 mg/kg based upon their lack of presence in the data.
  - UCL calculations are performed on Aroclors 1242, 1248, 1254, and 1260 using the half the quantitation limit where ND results are reported.
  - UCL calculations included both floor and sidewall samples.
- The sampling round (e.g. R1, R2, etc.) correlates to Verification Area grids or sidewalls where additional rounds of excavation were completed due to exceedances of the cleanup criteria.
- Property boundary locations approximated from the Lawrence County survey plats. Locations may not accurately represent the true property boundaries.
- The verification figure is presented to show progress for this reporting period. Excavation verification may not be complete as statistical analysis or further excavation may be required.

A value of 0 mg/kg is used in the UCL calculation for sample grids excavated to bedrock.
    - Sediments to  $\leq 1$  mg/kg.
  - Composite sidewall samples were collected in the location where the sidewall of the excavation exceeded 6 inches in height.
  - The surficial confirmation samples (8 composites per Verification Area except where bedrock is encountered) were collected after the soil/sediment removal was performed.
  - A value of 0 mg/kg is used for ND in the calculation of Total PCBs.
  - For UCL calculations, Aroclors 1016, 1221, and 1232 have been assigned a ND value of 0 mg/kg based upon their lack of presence in the data.
    - UCL calculations are performed on Aroclors 1242, 1248, 1254, and 1260 using half the quantitation limit where ND results are reported.
    - UCL calculations included both floor and sidewall samples.
  - The sampling round (e.g. R1, R2, etc.) correlates to Verification Area grids or sidewalls where additional rounds of excavation were completed due to exceedances of the cleanup criteria.
  - Property boundary locations approximated from the Lawrence County survey plats. Locations may not accurately represent the true property boundaries.
  - The verification figure is presented to show progress for this reporting period. Excavation verification may not be complete as statistical analysis or further excavation may be required.

UCL Calculations							

**GENERAL NOTES:**

- Cleanup Criteria
  - Soils to  $\leq 1.8$  mg/kg.
    - if all results are  $< 5.0$  mg/kg, the cleanup objective can be verified in the Verification Area (approximately 100ft x 200ft) by calculating the Upper Confidence Limit (UCL) of the average concentration using statistics, if the UCL is  $\leq 1.8$  mg/kg the cleanup objective will be met for the given Verification Area. A value of 0 mg/kg is used in the UCL calculation for sample grids excavated to bedrock.
  - Sediments to  $\leq 1$  mg/kg.
- Composite sidewall samples were collected in the location where the sidewall of the excavation exceeded 6 inches in height.
- The surficial confirmation samples (8 composites per Verification Area except where bedrock is encountered) were collected after the soil/sediment removal was performed.
- A value of 0 mg/kg is used for ND in the calculation of Total PCBs.

UCL Calculations							

**GENERAL NOTES:**

- (1) Cleanup Criteria
  - a.) Soils to  $\leq 1.8$  mg/kg.
    - if all results are  $< 5.0$  mg/kg, the cleanup objective can be verified in the Verification Area (approximately 100ft x 200ft) by calculating the Upper Confidence Limit (UCL) of the average concentration using statistics, if the UCL is  $\leq 1.8$  mg/kg the cleanup objective will be met for the given Verification Area. A value of 0 mg/kg is used in the UCL calculation for sample grids excavated to bedrock.
  - b.) Sediments to  $\leq 1$  mg/kg.
- (2) Composite sidewall samples were collected in the location where the sidewall of the excavation exceeded 6 inches in height.
- (3) The surficial confirmation samples (8 composites per Verification Area except where bedrock is encountered) were collected after the soil/sediment removal was performed.
- (4) A value of 0 mg/kg is used for ND in the calculation of Total PCBs.
- (5) For UCL calculations, Aroclors 1016, 1221, and 1232 have been assigned a ND value of 0 mg/kg based upon their lack of presence in the data.
  - UCL calculations are performed on Aroclors 1242, 1248, 1254, and 1260 using half the quantitation limit where ND results are reported.
  - UCL calculations included both floor and sidewall samples.
- (6) The sampling round (e.g. R1, R2, etc.) correlates to Verification Area grids or sidewalls where additional rounds of excavation were completed due to exceedances of the cleanup criteria.
- (7) Property boundary locations approximated from the Lawrence County survey plats. Locations may not accurately represent the true property boundaries.
- (8) The verification figure is presented to show progress for this reporting period. Excavation verification may not be complete as statistical analysis or further excavation may be required.

## Notes:

\* - Results not reported due to machine malfunction

<sup>(1)</sup> - Exceedences due to increased working activities<sup>(2)</sup> - Data is anomalous. Work activities in the area were limited and do not support the spikes observed in the TSP data.

NR - No result because machine was not setup

APPENDIX A

DELIVERABLES SUMMARY

**APPENDIX A**  
**DELIVERABLES SUMMARY**

<i>Deliverable</i>	<i>Reference</i>	<i>Deadline</i>	<i>Deliverable Due Date</i>	<i>Status</i>
Final Parcel 22 Workplan	AOC IV.23; VIII.34.a	Approved July 23, 2003	July 23, 2003	complete
Final Upstream Workplan	AOC IV.25; VIII.34.b	Approved July 23, 2003	July 23, 2003	complete
Designation of Contractors and Project Coordinator	AOC VII.30; VII.31	CRA & McGuigan – Effective Date of Order Other contractors – 5 business days prior to commencement of work	July 31, 2003	complete
Contractor HASP	'U.S. EPA Approval Letter, July 23, 2003'	before work is to begins		complete
QAPP	AOC VIII.34.c; VIII.37.a	QAPP – 10 business days AED *	August 14, 2003	complete
OMMP	AOC VIII.38	OMMP – 30 business days after completion of each portion of Work in Paragraph 34. Final OMMP due with Final Report		
Downstream Workplan	AOC VIII.34.d; VIII.35.a	90 days AED	October 29, 2003	complete
Site Source Control Workplan	AOC VIII.34.e; VIII.35.a	Approved November 11, 2003	August 21, 2003	complete
Monthly Progress Reports	AOC VIII.39.a	1 <sup>st</sup> 30 days AED 15 <sup>th</sup> of each month thereafter	August 30, 2003 June 15, 2008	complete submitted June 13, 2008
Final Report	AOC VIII.40	Within 90 days after required info is received and work completed		

Note:

AED = After Effective Date of Administrative Order on Consent

APPENDIX B

MEETING MINUTES

## MEETING MINUTES

Reference No. 13968

PROJECT: GM Powertrain Removal Action Project  
 OWNER: General Motors Corporation CONTRACT NO.: 13968(89)  
 RE: Construction Meeting  
 LOCATION: Bedford, Indiana DATE: May 1, 2008 TIME: 3:00 p.m.

**Participants:**

Earney Funderburg; ENTACT	Robin Compton; ENTACT	
Heather Alcorn; ENTACT	Tim Cotton; ENTACT	
Dave Hinton; ENTACT	George Seng; CRA	

**Distribution:**

Cheryl Hiatt; GM	Jim McGuigan; CRA	Mary Kelly; CRA
Glenn Turchan; CRA	Jeff Daniel; CRA	Peter Ramanauskas; USEPA
Bill Steinmann; CRA	Jim Moir; CRA	Jerry O'Callaghan; IDEM
Ed Peterson; GM	Brad Stimple; USEPA	

<i>Item</i>	<i>Description</i>	<i>Action By</i>
<b>1.0</b>	<b>SAFETY</b>	
1.1	ENTACT continues meetings with haul truck drivers.	ENTACT
1.2	ENTACT continues to hold monthly trucker driver meeting.	ENTACT
1.3	ENTACT field personnel continue to clean taillights and license plates of haul trucks as they become obscured.	ENTACT
1.4	ENTACT continues to tarp stockpiles daily in a safe controlled manner.	ENTACT
1.5	CRA noticed one Young truck exceeding the posted and site speed limit. ENTACT gave the driver a written warning.	--
1.6	ENTACT states local resident refuses to stop for flaggers. The driver swears and yells at posted flagmen. ENTACT was reminded to stay calm and flaggers are not to place themselves in danger.	--
1.7	ENTACT security noted 4 wheelers riding on parcel 39 mulch piles. Riders left the scene when approached by security	--
1.8	Several small children were seen playing at the borrow source. ENTACT safety politely explained why they shouldn't be there and asked them to leave. The children left with no issues	--
<b>2.0</b>	<b>TRAFFIC</b>	
2.1	ENTACT will continue to have daily meetings with truck drivers. Drivers are re-orientated upon their return to the site.	ENTACT
2.2	ENTACT's safety personnel continue to monitor traffic along the haul routes throughout the day. Flaggers are posted at intersections and blind spots when needed.	ENTACT
2.3	ENTACT safety officer continues to ride with truck drivers for safety inspections.	ENTACT

<b>Item</b>	<b>Description</b>	<b>Action By</b>
<b>3.0</b>	<b>ISSUES / CONCERNS</b>	
3.1	ENTACT expresses concern for the condition of the edge of excavation along Peerless Road. ENTACT states the edge is slowly breaking away.	--
3.2	CRA reminded ENTACT not to take directions from other site contractors.	--
		--
<b>4.0</b>	<b>REQUEST FOR INFORMATION</b>	
4.1	ENTACT requested guidance regarding the Parcel 81 debris cleanup.	CRA
		--
<b>5.0</b>	<b>CURRENT WORK ACTIVITIES</b>	
<b>5.1</b>	<b>General Activities</b>	
5.1.1	ENTACT surveyors are on-Site on an as-needed basis.	--
5.1.2	ENTACT continued water management activities and direct discharge of treated water.	ENTACT
5.1.3	ENTACT continued re-digs as identified by CRA sampling.	ENTACT
5.1.4	CRA continued surveying and collecting verification samples throughout the excavation areas.	CRA
5.1.6	ENTACT continued pumping DC3 around the Parcel 39 excavation.	ENTACT
5.1.7	ENTACT continues less than 50 loadout from area G	ENTACT
5.1.8	ENTACT conducted shoulder repairs along Peerless Road	ENTACT
<b>5.2</b>	<b>Water Treatment Plant (WTP)</b>	
5.2.1	ENTACT continued direct discharge of treated water from WTP2. Effluent samples taken at WTP2 continue to meet the discharge criteria.	ENTACT
<b>5.3</b>	<b>Parcel 36 &amp; 37 (Staging Area F)</b>	
5.3.1	ENTACT continued redigs.	ENTACT
<b>5.4</b>	<b>Parcel 38 and 39 (Staging Area G and Borrow Area)</b>	
5.4.1	ENTACT is maintaining decontamination facilities and stockpiles.	ENTACT

<b>Item</b>	<b>Description</b>	<b>Action By</b>
5.4.2	ENTACT continues stockpiling activities at borrow source area and loading borrow soil as requested.	ENTACT
5.4.3	ENTACT continues loadout and hauling of < 50 material to the east plant.	ENTACT
<b>5.5</b>	<b>Parcel 40</b>	
5.5.1	ENTACT continued excavation.	ENTACT
<b>5.6</b>	<b>Diversion Channel 3</b>	
5.6.1	Pleasant Run Branch continues to be diverted into DC3.	--
<b>6.0</b>	<b>Miscellaneous Activities</b>	
6.1	There were no archeological findings reported since the last construction meeting.	--
<b>7.0</b>	<b>COMMUNITY RELATIONS</b>	
7.1	All community contacts should be immediately referred to Becki Akers. CRA reminded ENTACT to document and forward community contacts to CRA.	--
7.2	ENTACT reported no community contacts this reporting period	
<b>8.0</b>	<b>WORK HOURS</b>	
8.1	ENTACT will work Monday thru Saturday as weather permits	--
8.2	Personnel will be available 24 hours a day for water treatment if needed.	--
<b>9.0</b>	<b>SUB-CONTRACTORS ON-SITE</b>	
	Young Trucking- imported stone hauling. < 50 hauling	--

## MEETING MINUTES

Reference No. 13968

PROJECT: GM Powertrain Removal Action Project  
 OWNER: General Motors Corporation CONTRACT NO.: 13968(89)  
 RE: Construction Meeting  
 LOCATION: Bedford, Indiana DATE: May 22, 2008 TIME: 3:30 p.m.

**Participants:**

Earney Funderburg; ENTACT	Dan Nelson; CRA	
Heather Alcorn; ENTACT	George Seng; CRA	
Robin Compton; ENTACT		
Dave Hinton; ENTACT		

**Distribution:**

Cheryl Hiatt; GM	Jim McGuigan; CRA	Mary Kelly; CRA
Glenn Turchan; CRA	Jeff Daniel; CRA	Peter Ramanauskas; USEPA
Bill Steinmann; CRA	Jim Moir; CRA	Jerry O'Callaghan; IDEM
Ed Peterson; GM	Brad Stimple; USEPA	

<b>Item</b>	<b>Description</b>	<b>Action By</b>
<b>1.0</b>	<b>SAFETY</b>	
1.1	ENTACT continues meetings with haul truck drivers.	ENTACT
1.2	ENTACT continues to hold monthly trucker driver meeting.	ENTACT
1.3	ENTACT field personnel continue to clean taillights and license plates of haul trucks as they become obscured.	ENTACT
1.4	ENTACT continues to tarp stockpiles daily in a safe controlled manner.	ENTACT
1.5	CRA states, flagging operations at SES haul road and Peerless Road is going well. ENTACT and SES flaggers working together	--
1.6	ENTACT increase dust control on roads as hot dry weather increases.	--
1.7	VECTREN to be on site this week to examine gas line for parcel 81 debris removal.	Vectren/ENTACT
<b>2.0</b>	<b>TRAFFIC</b>	
2.1	ENTACT will continue to have daily meetings with truck drivers. Drivers are re-orientated upon their return to the site.	ENTACT
2.2	ENTACT's safety personnel continue to monitor traffic along the haul routes throughout the day. Flaggers are posted at intersections and blind spots when needed.	ENTACT
2.3	ENTACT safety officer continues to ride with truck drivers for safety inspections.	ENTACT
<b>3.0</b>	<b>ISSUES / CONCERNS</b>	
3.1	ENTACT expresses concern for the condition of the edge of excavation along Peerless road.	--

<b>Item</b>	<b>Description</b>	<b>Action By</b>
3.2	ENTACT expresses concern regarding cooperation between ENTACT and Ingram Quarry for supply of material. CRA suggested a meeting with CRA, ENTACT and Ingram to resolve any outstanding conflicts. ENTACT agreed this would be useful.	--
<b>4.0</b>	<b>REQUEST FOR INFORMATION</b>	
4.1	ENTACT requested a written price list from Ingram Quarry for project supplied materials.	--
4.2	If ENTACT was to use material from another approved quarry (approval from a chemical testing stand point), ENTACT must confirm the material supplied by the quarry is equal or less expensive than the cost of material from Ingram. If the material is unavailable from Ingram, then ENTACT should document the situation and notify CRA.	--
<b>5.0</b>	<b>CURRENT WORK ACTIVITIES</b>	
<b>5.1</b>	<b>General Activities</b>	
5.1.1	ENTACT surveyors are on-Site on an as-needed basis.	--
5.1.2	ENTACT continued water management activities and direct discharge of treated water.	ENTACT
5.1.3	ENTACT continued re-digs as identified by CRA sampling.	ENTACT
5.1.4	CRA continued surveying and collecting verification samples throughout the excavation areas.	CRA
5.1.6	ENTACT continued pumping DC3 around the Parcel 39 excavation.	ENTACT
5.1.7	ENTACT continues less than 50 loadout from area G	ENTACT
<b>5.2</b>	<b>Water Treatment Plant (WTP)</b>	
5.2.1	ENTACT continued direct discharge of treated water from WTP2. Effluent samples taken at WTP2 continue to meet the discharge criteria.	ENTACT
<b>5.3</b>	<b>Parcel 36 &amp; 37 (Staging Area F)</b>	
5.3.1	ENTACT will complete their final topo and remove site controls.	--
<b>5.4</b>	<b>Parcel 38 and 39 (Staging Area G and Borrow Area)</b>	
5.4.1	ENTACT is maintaining decontamination facilities and stockpiles.	ENTACT
5.4.2	ENTACT continues stockpiling activities at borrow source area and loading borrow soil as requested.	ENTACT
5.4.3	ENTACT continues loadout and hauling of < 50 material to the east plant.	ENTACT
5.4.4	ENTACT to begin prep work of Borrow area 39-7.	ENTACT
<b>5.5</b>	<b>Parcel 40</b>	
5.5.1	ENTACT continued excavation.	ENTACT
<b>5.6</b>	<b>Diversion Channel 3</b>	
5.6.1	Pleasant Run Branch continues to be diverted into DC3.	--
<b>6.0</b>	<b>Miscellaneous Activities</b>	
6.1	There were no archeological findings reported since the last construction meeting.	--

<b>Item</b>	<b>Description</b>	<b>Action By</b>
<b>7.0</b>	<b>COMMUNITY RELATIONS</b>	
7.1	All community contacts should be immediately referred to Becki Akers. CRA reminded ENTACT to document and forward community contacts to CRA.	- -
7.2	A man stopped and spoke with ENTACT flagger at SES haul road asking if he could look in the creek for Geodes. ENTACT Flagger stated he was not authorized to make that decision and directed the gentleman to the CRA trailer and gave him the GM contact information.	- -
<b>8.0</b>	<b>WORK HOURS</b>	
8.1	ENTACT will work Monday thru Friday with only 8 hrs on Friday and be back to work on Tuesday the 27 in observation of Memorial day	
8.2	Personnel will be available 24 hours a day for water treatment if needed.	- -
<b>9.0</b>	<b>SUB-CONTRACTORS ON-SITE</b>	
	Young Trucking- imported stone hauling. < 50 hauling BRG survey group-as needed	- -

<b>3.0</b>	<b>ACTION ITEMS FROM PREVIOUS MEETING</b>	
3.1	None.	--
<b>4.0</b>	<b>ITEMS RELATED TO CURRENT WORK ACTIVITIES</b>	
<b>4.1</b>	<b>Treatment System (Parcel 216)</b>	
4.1.1	CRA continues to sample the SES treatment system on a weekly and monthly basis.	CRA
4.1.2	SES completed the batch testing of the new water treatment system on Tuesday April 22, 2008 and is waiting for sample results to be reviewed and accepted by CRA.	SES
<b>4.2</b>	<b>Parcels 15, 216, 21, Tributary 3 (south of Parcel 21 dam)</b>	
4.2.1	None	SES
<b>4.3</b>	<b>Parcel 20 Restoration Modification and Parcel 22 Restoration</b>	
4.3.1	Lawns and Landscapes have been scheduled to inspect the trees planted in Parcel 22 during the week of May 12, 2008.	SES
<b>4.4</b>	<b>Miscellaneous Activities</b>	
4.4.1	SES continued importing backfill material and grading at the Northern Tributary.	SES
<b>5.0</b>	<b>SUB-CONTRACTORS ON-SITE</b>	
5.1	None.	--

<i>Item</i>	<i>Description</i>	<i>Action By</i>
6.0	<b>WORK HOURS</b>	
6.1	SES is working 10-hour days Monday through Friday this week and anticipates returning to 6-days next week when other Site works increase. The water management crew continues to work as necessary.	--

## MEETING MINUTES

Reference No. 013968

PROJECT: GM Powertrain Removal Action Project  
 OWNER: General Motors Corporation CONTRACT NO.: 13968(246)  
 RE: Construction Meeting - Enhanced Restoration of Parcels 29, 30, 36, 37 and 72  
 LOCATION: Bedford, Indiana DATE: May 7, 2008 TIME: 13:00 p.m.

**Participants:**

Matt Downing; CRA	Dan Nelson; CRA	Jim Pazderski; SES
Randy Campbell; SES	Shane Reynolds; CRA	

**Distribution:**

Jim McGuigan; CRA	Katie Kamm; CRA	Cheryl Hiatt; GM
Glenn Turchan; CRA	Mary Kelly; CRA	Ed Peterson; GM
Bill Steinmann; CRA	Paul Farquharson; CRA	Jim Moir; CRA
Jeff Daniel; CRA	Peter Ramanauskas; USEPA	Jerry O'Callaghan; IDEM
Kristen Harper; CRA	Brad Stimple; USEPA	Stacey DeLaReintrie; TN&A
Participants; CRA		

<i>Item</i>	<i>Description</i>	<i>Action By</i>
<b>1.0</b>	<b>SAFETY</b>	
1.1	Safety Moment: CRA reviewed the Site policy that all vehicles must be turned off when the driver or operator leaves the vehicle.	--
1.2	SES stated that they would set up a CPR and First Aid refresher for their staff.	SES
1.3	SES made revisions to their Site-specific HASP for restoration activities based on suggestions by CRA HSO (Dan Nelson). CRA HSO and Mark Nicklas (SES H&S Manager) plan to speak later in the day to finalize the HASP.	CRA/SES
1.4	CRA and SES agreed that SES staff who conduct work activities for the P29-37 Enhanced Restoration as well as other areas of the Site will sign both the SES general Site HASP and the restoration HASP.	SES
1.5	CRA requested that SES ensures all trucks are appropriately tarped (i.e. truck beds are completely covered).	--
<b>2.0</b>	<b>ACTION ITEMS FROM PREVIOUS MEETING</b>	
2.1	CRA noted that they had received the preliminary UCL calculation results for Verification Areas 81, 84, and 90 in Parcel 30. CRA notified SES that they could begin rough grading in the area.	--
2.2	CRA stated that UCL calculations were being completed for Verification Areas 128, 195, and 196. CRA noted that if the results were acceptable, SES would have access to approximately 60% of the area along Bud Ikerd Road between Peerless Road and the ENTACT WTP for their staging area. CRA will notify SES of the results.	CRA

Item	Description	Action By
<b>3.0</b>	<b>REQUESTS FOR INFORMATION AND ITEMS TO NOTE</b>	
3.1	SES expressed concern that ENTACT was loading the off-road trucks in the P39-1 borrow area with an inappropriate excavator (a Cat 318 rather than a Cat 330). SES explained that a Cat 318 would take two to three times longer to load a 30-ton dump truck than a Cat 330. CRA replied that ENTACT was notified not to load SES trucks with the Cat 318 and requested that ENTACT order a Cat 330 excavator to load SES trucks as soon as possible.	--
3.2	CRA is evaluating if shale from the Ingram quarry is approved for use by SES to improve the temporary Site haul road. The shale would ultimately be used as backfill material in the restoration area.	CRA
3.3	SES notified CRA that ENTACT was performing work with a skid steer loader and several pick up trucks along the Site haul road in Parcel 37 on 05-07-08. SES requested ENTACT notifies SES prior to conducting work in the restoration area to ensure proper safety precautions are taken. CRA stated that ENTACT would be reminded to notify SES prior to performing any activity in SES's work area.	CRA
<b>4.0</b>	<b>ITEMS RELATED TO CURRENT WORK ACTIVITIES</b>	
<b>4.1</b>	<b>Parcel 29</b>	
4.1.1	None	--
<b>4.2</b>	<b>Parcels 30</b>	
4.2.1	SES continued de-watering activities.	SES
4.2.2	SES began rough grading and scarification.	SES
<b>4.3</b>	<b>Parcel 36</b>	
4.3.1	SES continued de-watering activities.	SES
4.3.2	SES installed 4" limestone riprap to act as a tire scrub along the east end of the Site haul road.	SES
4.3.3	SES began the installation of R2 riprap under the Peerless Road Bridge.	SES
<b>4.4</b>	<b>Parcel 37</b>	
4.4.1	None	--
<b>4.5</b>	<b>Parcel 72</b>	
4.5.1	None	--
<b>4.6</b>	<b>Miscellaneous Activities</b>	
4.6.1	BRG continues to complete the base topographical survey. SES stated that they intended to submit the second portion of the base topo early next week.	SES
4.6.2	CRA reminded SES about the requirement for Monthly Progress Reports.	SES
<b>5.0</b>	<b>SUB-CONTRACTORS ON-SITE</b>	
5.1	BRG – base topographic survey	--
5.2	Ingram Trucking (William Hanna Trucking, Dewey Trucking, A+ Trucking and Performance Concrete are subcontracted by Ingram to provide trucking services) – import restoration material for Peerless Road bridge.	--
<b>6.0</b>	<b>SCHEDULE</b>	
6.1	None	--

<i>Item</i>	<i>Description</i>	<i>Action By</i>
7.0	<b>WORK HOURS</b>	
7.1	SES intends to work Monday through Friday from 7:00 a.m. to 5:00 p.m. and Saturday from 7:00 a.m. to 3:00 p.m.	--

Attachments: \_\_\_\_\_

## MEETING MINUTES

Reference No. 013968

PROJECT: GM Powertrain Removal Action Project  
 OWNER: General Motors Corporation CONTRACT NO.: 13968(246)  
 RE: Construction Meeting - Enhanced Restoration of Parcels 29, 30, 36, 37 and 72  
 LOCATION: Bedford, Indiana DATE: May 14, 2008 TIME: 13:00 p.m.

**Participants:**

Matt Downing; CRA	Shane Reynolds; SES	Jim Pazderski; SES
Kristen Harper; CRA	Chris Bement; SES	Randy Campbell; SES
Dan Nelson; CRA	Ryan Smith; SES	George McDonell; SES

**Distribution:**

Jim McGuigan; CRA	Katie Kamm; CRA	Cheryl Hiatt; GM
Glenn Turchan; CRA	Mary Kelly; CRA	Ed Peterson; GM
Bill Steinmann; CRA	Paul Farquarson; CRA	Jim Moir; CRA
Jeff Daniel; CRA	Peter Ramanaukas; USEPA	Jerry O'Callaghan; IDEM
Kristen Harper; CRA	Brad Stimple; USEPA	Stacey DeLaReintrie; TN&A
Participants; CRA		

<i>Item</i>	<i>Description</i>	<i>Action By</i>
<b>1.0</b>	<b>SAFETY</b>	
1.1	Safety Moment: CRA reminded SES that it is policy for trucks to have their headlights on when hauling for Site activities.	--
1.2	SES has scheduled CPR and First Aid refreshers for their staff during the last week of May.	SES
1.3	SES submitted the finalized Site-specific HASP for restoration activities to CRA on 05-14-08. SES will have staff review and sign the HASP by the end of this week. SES will provide CRA with a copy of the HASP signature page and will provide updated/additional signature pages with their Monthly Progress Reports.	SES
1.4	SES completed the video survey of the haul routes on 05-13-08. SES will provide a copy to CRA.	SES
1.5	SES will complete the truck driver Site trucking orientation and training by 05-21-08 for drivers currently hauling restoration material. SES will continue the orientation throughout the duration of the project. SES will provide CRA a copy of the signed Trucking Policy and Orientation sheets and will provide updated/additional sheets with their Monthly Progress Reports.	SES
1.6	SES will have the current staff review and sign the GMPT Safe Job Operating Procedures package by 05-21-08. SES will provide CRA with a copy of the signature page for the GMPT Safe Job Operating Procedures and will provide updated/additional signature pages with their Monthly Progress Reports.	SES

<i>Item</i>	<i>Description</i>	<i>Action By</i>
<b>2.0</b>	<b>ACTION ITEMS FROM PREVIOUS MEETING</b>	
2.1	CRA gave SES approval to access approximately 60% of the area along Bud Ikerd Road between Peerless Road and the ENTACT WTP (Verification Areas 127, 128, 195, and 196). SES began construction activities to install the project trailer and staging area.	SES
2.2	CRA noted that remediation was ongoing in Verification Area 192. CRA will notify SES when they can access the area.	CRA
<b>3.0</b>	<b>REQUESTS FOR INFORMATION AND ITEMS TO NOTE</b>	
3.1	CRA notified ENTACT of the requirement for appropriate equipment (Cat 330 versus Cat 318) to load restoration material from the borrow area. ENTACT subsequently mobilized a Cat 330 excavator to the borrow area.	--
3.2	SES re-evaluated the use of shale as haul road material and subsequently decided to continue importing the 4" riprap for their haul road improvements. CRA reminded SES that the stone is to be used as backfill for the former Diversion Channels or as the bottom layer of common fill in the floodplain (below the organic clay).	--
3.3	CRA reminded ENTACT to notify SES prior to performing any activity in SES's work area as a safety precaution.	--
3.4	SES inquired if the piece of concrete (former Peerless Road bridge wingwall) adjacent to the Peerless Road bridge can be removed. CRA will notify SES of the status.	CRA
3.5	SES will provide CRA a 2-way radio for Site communications.	SES
3.6	CRA noted that SES has the responsibility of notifying CRA (Matt Downing) if material from the Ingram Quarry was not meeting specifications (based on visual inspection upon delivery).	--
3.7	CRA stated that off road dump trucks are approved to cross Peerless Road (from the P39 borrow area to the P29-37 restoration area), but area not approved to travel on public roadways.	--
3.8	SES stated that they had imported sufficient R2 riprap to protect the Peerless Road Bridge footings. SES noted that they did not intend to import additional R2 riprap until near the end of the project.	--
<b>4.0</b>	<b>ITEMS RELATED TO CURRENT WORK ACTIVITIES</b>	
<b>4.1</b>	<b>Parcel 29</b>	
4.1.1	SES continued de-watering activities.	SES
<b>4.2</b>	<b>Parcels 30</b>	
4.2.1	SES stockpiled deadfalls that were transported by surface water into the work area from the upstream restored area.	SES
4.2.2	SES continued de-watering activities, which included installing a drainage swale to help manage the main creek flow.	SES
4.2.3	SES continued rough grading and scarification.	SES
4.2.4	SES imported and stockpiled 17 loads of common fill.	SES
4.2.5	SES extended the access road.	SES
<b>4.3</b>	<b>Parcel 36</b>	
4.3.1	SES continued de-watering activities.	SES
4.3.2	SES continued installing R2 riprap under the Peerless Road Bridge.	SES
4.3.3	CRA will collect a characterization soil sample from the tree stump this week.	CRA

Item	Description	Action By
4.4	<b>Parcel 37</b>	
4.4.1	SES continued installing R2 riprap under the Peerless Road Bridge.	SES
4.4.2	SES installed approximately 90' of corrugated metal pipe along Bud Ikerd Road as a culvert for the ENTACT WTP influent waterline. SES will provide CRA with the survey when completed.	SES
4.5	<b>Parcel 72</b>	
4.5.1	None	--
4.6	<b>Miscellaneous Activities</b>	
4.6.1	BRG continues to complete the base topographical survey. SES will provide the survey information when completed.	SES
4.6.2	SES will submit the April Monthly Progress Report subsequent to CRA approving the report template.	CRA/SES
4.6.3	SES moved approximately 12 lengths of 36" HDPE pipe from their laydown area on Bailey Scales Road to the restoration area. SES intends to use the pipe for temporary stream crossings.	SES
4.6.4	SES submitted both an updated submittal schedule and the proctor for TP-6 material from the P39-1 borrow source.	SES
5.0	<b>SUB-CONTRACTORS ON-SITE</b>	
5.1	BRG – base topographic survey	--
5.2	Ingram Trucking - import restoration material for Peerless Road bridge	--
5.3	Dwight Smith Logging – equipment relocation	--
6.0	<b>SCHEDULE</b>	
6.1	None	--
7.0	<b>WORK HOURS</b>	
7.1	SES intends to work Monday through Friday from 7:00 a.m. to 5:00 p.m. and Saturday from 7:00 a.m. to 3:00 p.m.	--

Participants; CRA		

Item	Description	Action By
1.0	<b>SAFETY</b>	
1.1	Safety Moment: CRA stated that the public road speed limit for trucks is 25 mph when hauling material for Site activities. CRA noted that an A+ Performance truck was observed travelling at a questionable rate of speed on 5-21-08.	--
1.2	CRA noted that the traffic control operations near the intersection of Peerless Road and Bud Ikerd Road appear to be working well.	--
1.3	SES provided CRA with a copy of the current signature pages of the Site-specific HASP for restoration activities on 05-21-08. SES will provide a copy of any updated/additional signature pages with their Monthly Progress Reports.	SES
1.4	SES completed the Site trucking orientation for drivers currently hauling restoration material. SES will continue the orientations throughout the duration of the project. SES provided CRA a copy of the signed Trucking Policy and Orientation sheets. SES will provide updated/additional sheets with their Monthly Progress Reports.	SES
1.5	SES reviewed the GMPT Safe Job Operating Procedures package with their staff. SES provided CRA with a copy of the signature pages for the GMPT Safe Job Operating Procedures. SES will provide updated/additional signature pages with their Monthly Progress Reports.	SES
1.6	SES stated that a small volume (less than 500 ml) of hydraulic fluid had dripped onto the haul road west of Peerless Road while performing routine maintenance on an excavator. The impacted soil was placed in a drum and will be disposed of appropriately. SES agreed to complete an incident report and provide CRA with a copy.	SES

Item	Description	Action By
2.0	<b>ACTION ITEMS FROM PREVIOUS MEETING</b>	
2.1	CRA stated that the submittals to date from SES would be reviewed and signed by the end of the following week.	CRA
2.2	CRA noted that remediation was ongoing in Verification Area 192. CRA stated that additional sample results were expected by the end of the day. CRA will notify SES of the results and if/when they can access the area.	CRA
2.3	SES will provide a copy of the Site haul route video survey to CRA in the near future.	SES
3.0	<b>REQUESTS FOR INFORMATION AND ITEMS TO NOTE</b>	
3.1	CRA informed SES that during the remediation activities, creek sidewalls and grid floors were cleaned up to a 1.8 ppm if they were more than two feet from the original creek location. CRA noted that it was important to ensure that these sample locations were backfilled with a minimum of two feet of material. CRA added that they would identify the sample locations (approximately 20) in the field and work with SES to confirm the minimum cover of two feet is met as part of the restoration activities.	CRA/SES
3.2	CRA informed SES that sampling was incomplete in Verification Area 125, because of the location of the ENTACT WTP. If the WTP is not dismantled prior to the creek restoration in that area, SES may be required to place poly sheeting along the current excavation limits and restore the area as much as possible.	SES
3.3	CRA stated that they had received the sample results for the soil around the root ball of the large stump remaining in Parcel 36. Sample results were below 1.0 ppm. CRA is evaluating whether or not to leave the stump in the floodplain area as a deadfall.	CRA
3.4	CRA stated that the piece of concrete (former Peerless Road bridge wingwall) adjacent to the Peerless Road bridge should remain in place until the rough back wall is installed. When the concrete is eventually removed, it should be broken up and used as backfill material.	SES
3.5	SES provided CRA a 2-way radio for Site communications.	SES
3.6	For progress payments purposes, CRA and SES discussed submittals required for progress payments. It was agreed that SES could calculate the rough grade common fill quantity by subtracting the rough grade cut quantity from the total fill quantity. It was agreed that the rough grade cut quantity and the rough grade fill quantity were equal, and therefore any addition fill quantity was common fill from the Site borrow source.	SES/CRA
3.7	SES stated that they had placed fencing up to delineate the culvert location at the Bud Ikerd Site access. The fence will prevent truck hauling restoration material from crossing the ENTACT WTP influent line at any location other than over the culvert.	SES
4.0	<b>ITEMS RELATED TO CURRENT WORK ACTIVITIES</b>	
4.1	<b>Parcel 29</b>	
4.1.1	SES continued de-watering activities.	SES
4.2	<b>Parcels 30</b>	
4.2.1	SES continued de-watering activities which included widening several temporary drainage ditches to accommodate storm events.	SES
4.3	<b>Parcel 36</b>	
4.3.1	SES continued de-watering activities which included widening several temporary drainage ditches to accommodate storm events.	SES
4.3.2	SES continued the installation of the Bud Ikerd access and staging area.	SES
4.3.3	SES continued the construction and maintenance of temporary Site haul roads.	SES

Item	Description	Action By
4.3.4	SES began the installation of two creek/diversion channel crossings. SES imported some additional R2 riprap to complete the crossings. SES noted that the R2 riprap seemed to meet the project specification based on visual inspection.	SES
<b>4.4</b>	<b>Parcel 37</b>	
4.4.1	SES continued de-watering activities which included widening several temporary drainage ditches to accommodate storm events.	SES
<b>4.5</b>	<b>Parcel 72</b>	
4.5.1	None	--
<b>4.6</b>	<b>Miscellaneous Activities</b>	
4.6.1	BRG continues to complete the base topographical survey. SES plans to provide the next section of survey data by the end of the day. SES noted that the culvert (CMP) installed along Bud Ikerd Road would be included in the next portion of survey.	SES
4.6.2	SES received three radios from ENTACT so that all the traffic control personnel working along Peerless Road and Bud Ikerd Road could communicate.	SES
4.6.3	Housekeeping and refuse clean up are ongoing activities.	SES
<b>5.0</b>	<b>SUB-CONTRACTORS ON-SITE</b>	
5.1	BRG – base topographic survey	--
5.2	Ingram Trucking - import restoration material for Peerless Road bridge	--
5.3	Mullis – fuel	--
<b>6.0</b>	<b>SCHEDULE</b>	
6.1	None	--
<b>7.0</b>	<b>WORK HOURS</b>	
7.1	SES will be not be working Saturday through Monday (05-24-08 through 05-26-08) due to the Memorial Day holiday. After Memorial Day, SES will return to their standard schedule: Monday through Friday from 7:00 a.m. to 5:00 p.m. and Saturday from 7:00 a.m. to 3:00 p.m.	--

Date Issued: June 10, 2008

This confirms and records CRA's interpretation of the discussions that occurred and our understanding reached during this meeting. Unless notified in writing within 3 days of the date issued, we will assume that the following interpretation or description is complete and accurate.

## MEETING MINUTES

Reference No. 013968

PROJECT: GM Powertrain Removal Action Project  
 OWNER: General Motors Corporation CONTRACT NO.: 13968(246)  
 RE: Construction Meeting - Enhanced Restoration of Parcels 29, 30, 36, 37 and 72  
 LOCATION: Bedford, Indiana DATE: May 28, 2008 TIME: 13:00 p.m.

**Participants:**

Matt Downing; CRA	Shane Reynolds; SES	Jim Pazderski; SES (Phone)
Paul Farquharson; CRA (Phone)	Chris Bement; SES	Randy Campbell; SES
Dan Nelson; CRA	Ryan Smith; SES	George McDonell; SES

**Distribution:**

Jim McGuigan; CRA	Katie Kamm; CRA	Cheryl Hiatt; GM
Glenn Turchan; CRA	Mary Kelly; CRA	Ed Peterson; GM
Bill Steinmann; CRA	Paul Farquharson; CRA	Jim Moir; CRA
Jeff Daniel; CRA	Peter Ramanauskas; USEPA	Jerry O'Callaghan; IDEM
Kristen Harper; CRA	Brad Stimple; USEPA	Stacey DeLaReintrie; TN&A
Participants; CRA		

<i>Item</i>	<i>Description</i>	<i>Action By</i>
<b>1.0</b>	<b>SAFETY</b>	
1.1	Safety Moment: CRA stated that it was important to be aware of the potential for flash flooding in the work area and added that PFD's (Personal Flootation Devices) should be worn when working near flooded areas.	CRA/SES
1.2	SES provided CRA with an incident report for the hydraulic fluid leak that occurred on 05-21-08.	SES
<b>2.0</b>	<b>ACTION ITEMS FROM PREVIOUS MEETING</b>	
2.1	CRA provided SES with signed copies of the following submittals: Initial Progress Schedule, Project Organization Chart, Site Layout, Project Submittal Schedule, Material Handling and Transportation Plan, Qualifications of Geotechnical Testing Firm.	CRA
2.2	CRA stated that, based on field records, remediation was complete in Verification Area 192. CRA is verifying the field records with the project sample database. CRA will notify SES when they can access the area.	CRA
2.3	SES expressed concern for the integrity of Bud Ikerd Road adjacent to the Verification Area 192 excavation. CRA stated that they would review the situation.	CRA
2.4	SES provided a copy of the pre-construction Site Haul Road Video Survey to CRA.	SES
2.5	CRA stated that the HASP submittal would not be signed or stamped by CRA. CRA assisted SES in development of the HASP on behalf of GM. The HASP is not a technical submittal to CRA, but rather a general submittal to GM. The HASP was forwarded to GM by CRA.	--

Item	Description	Action By
3.0	<b>REQUESTS FOR INFORMATION AND ITEMS TO NOTE</b>	
3.1	The Site received heavy rainfall and significant flooding occurred on 05-27-08.	--
3.2	SES stated that, despite the recent flooding, they intend to place their trailers at former Staging Area F. SES intends to place the trailers on an earthen pad above road level to protect them from flooding.	SES
3.3	CRA noted that the first two sections of SES's base topographical survey indicate that the Bid quantities could be off by approximately 2,200 cubic yards. The difference in quantity is likely due to the fact that excavation was not complete in Parcels 36 and 37 when the bid process was conducted. When SES submits the final/third section of their base topographical survey, CRA and SES will reevaluate the bid quantities for fill materials versus current Site conditions.	CRA/SES
4.0	<b>ITEMS RELATED TO CURRENT WORK ACTIVITIES</b>	
4.1	<b>Parcel 29</b>	
4.1.1	SES continued de-watering activities.	SES
4.2	<b>Parcels 30</b>	
4.2.1	SES continued de-watering activities.	SES
4.3	<b>Parcel 36</b>	
4.3.1	SES continued de-watering activities which included widening several temporary drainage ditches to accommodate storm events.	SES
4.3.2	SES continued the installation of the Bud Ikerd access and staging area.	SES
4.3.3	SES continued the construction and maintenance of temporary Site haul roads.	SES
4.3.4	SES completed the installation of two creek/diversion channel crossings	SES
4.4	<b>Parcel 37</b>	
4.4.1	SES continued de-watering activities.	SES
4.5	<b>Parcel 72</b>	
4.5.1	None	--
4.6	<b>Miscellaneous Activities</b>	
4.6.1	BRG continues to complete the base topographical survey.	SES
4.6.2	During the recent flooding, several rolls of SES's geotextile were washed down stream to Parcels 38 and 39. All the geotextile was recovered from completed remediation areas.	SES
4.6.3	SES installed a turbidity curtain at the downstream end of the Peerless Road Bridge to prevent silt from restoration activities from migrating downstream.	SES
5.0	<b>SUB-CONTRACTORS ON-SITE</b>	
5.1	BRG - base topographic survey	--
5.2	Ingram Trucking - import restoration material for Peerless Road bridge	--
5.3	Mullis - fuel	--
6.0	<b>SCHEDULE</b>	
6.1	None	--

<i>Item</i>	<i>Description</i>	<i>Action By</i>
7.0	<b>WORK HOURS</b>	
7.1	As soon as the Site dries to a reasonable level from the recent storm, SES intends to work Monday through Friday from 7:00 a.m. to 7:00 p.m. and Saturday from 7:00 a.m. to 5:00 p.m.	--
